

Jessica Hamilton

Product Design

What I have to offer

Skills: Patterning, draping, sewing, knitting on a knitting machine, dyeing, Photoshop, Illustrator, InDesign, Tech Packs, kicking ass etc

Work Habits: I'm a planner as I work full time, but I plan on working 4am-12pm and 6pm-1am on this project as my job hours are 10-6pm and 12-8pm. I have a well equipped studio space with all materials needed that is a 15 minute drive from school. Snacks and cuddles from my cat and dog are included.

More on me

My Aesthetic: Minimal in color and silhouette choices with a eye for textile useage.

My hopes for the project: establishing realistic due dates for the project to ensure smooth sailing. I want to enjoy the collaboration that we create and proudly present it in my portfolio.

What else I have to offer: A Professional Photographer at hand (for free), models at hand, a studio space to work and shoot in, industrial and home sewing machines, computer knitting machine.

My Partner (That's you!)

You are

Calm, collected, and hard working.

You have

attention to detail, communication skills,
your shit together
